

1A. Continuum of Care (CoC) Identification

Instructions:

The fields on this screen are read only and reference the information entered during the CoC Registration process. Updates cannot be made at this time. If the information on this screen is not correct, contact the HUD Virtual Help Desk at www.hudhre.info.

CoC Name and Number (From CoC Registration): CO-503 - Metropolitan Denver Homeless Initiative

CoC Lead Agency Name: Metro Denver Homeless Initiative

1B. Continuum of Care (CoC) Primary Decision-Making Group

Instructions:

The following questions are related to the CoC primary decision-making group. The primary responsibility of this group is to manage the overall planning effort for the entire CoC, including, but not limited to:

- Setting agendas for full Continuum of Care meetings
- Project monitoring
- Determining project priorities
- Providing final approval for the CoC application submission.

This body is also responsible for the implementation of the CoC's HMIS, either through direct oversight or through the designation of an HMIS implementing agency. This group may be the CoC Lead Agency or may authorize another entity to be the CoC Lead Agency under its direction.

Name of primary decision-making group: MDHI Board of Directors

Indicate the frequency of group meetings: Monthly or more

If less than bi-monthly, please explain (limit 500 characters):

Indicate the legal status of the group: 501(c)(3)

Specify "other" legal status:

Indicate the percentage of group members that represent the private sector: (e.g., non-profit providers, homeless or formerly homeless persons, advocates and consumer interests) 51%

*** Indicate the selection process of group members: (select all that apply)**

Elected:	<input checked="" type="checkbox"/>
Assigned:	<input type="checkbox"/>
Volunteer:	<input type="checkbox"/>
Appointed:	<input type="checkbox"/>
Other:	<input type="checkbox"/>

Specify "other" process(es):

Briefly describe the selection process of group members. Description should include why this process was established and how it works (limit 750 characters):

Per the bylaws amended in 2009, new Board Members are recommended by a Nominating Committee and voted on by the Board. This process assures a balanced Board in terms of category, geographical location, and skill set. The Board can now be comprised of up to 30 voting members; 10 members representing government organizations, 10 representing nonprofits serving homeless or at risk of homelessness & 10 independent members including homeless &/or formerly homeless, businesses, foundations, faith-based groups, & neighborhood associations. The Board of Directors shall represent constituencies from each of the 7 counties in MDHI. Also, a Community Advisory Board made up of homeless or formerly homeless provides feedback and suggestions to Board.

*** Indicate the selection process of group leaders: (select all that apply):**

Elected:	<input checked="" type="checkbox"/>
Assigned:	<input type="checkbox"/>
Volunteer:	<input type="checkbox"/>
Appointed:	<input type="checkbox"/>
Other:	<input type="checkbox"/>

Specify "other" process(es):

If administrative funds were made available to the CoC, would the primary-decision making body, or its designee, have the capacity to be responsible for activities such as applying for HUD funding and serving as a grantee, providing project oversight, and monitoring. Explain (limit 750 characters):

MDHI now writes the SuperNOFA & provides project oversight & monitoring of CoC funded applicants through the Review Committee which uses a monitoring process (project eval tool, site visits, APR review) to ensure program performance and quality. Additional admin funds would enable MDHI Board to continue work on strategic planning initiatives to strengthen the CoC including Coordinating Committee's current focus on a Regional Plan of participation and inclusion and MDHI Board's work with Mayors & Gov's office to implement capacity building for MDHI to be poised for the new HEARTH requirements. MDHI, as Lead Agency, was already successful this year in outreach made to other Colorado CoC's to purchase new HMIS software for entire state.

1C. Continuum of Care (CoC) Committees, Subcommittees and Work Groups

Instructions:

Provide information on up to five of the CoCs most active CoC-wide planning committees, subcommittees, and workgroups. CoCs should only include information on those groups that are directly involved in CoC-wide planning activities such as project review and selection, discharge planning, disaster planning, completion of the Exhibit 1 application, conducting the point-in-time count, and 10-year plan coordination. For each group, briefly describe the role and how frequently the group meets. If one of more of the groups meet less than quarterly, please explain.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Committees and Frequency

Name of Group	Role of Group (limit 750 characters)	Meeting Frequency
MDHI Executive & Finance Committee	Addresses strategic focus on Goals of CoC that align with the intra-jurisdictional 10 year plan. Oversee other committees' progress and meet with Committee Heads to address issues. Oversee MOU's and contract administration that might exist with community organizations, funding, private or governmental agencies to further the elimination of homelessness. Keeps a close eye on finances, fundidng and expenditures	Monthly or more
MDHI Research Committee	Coordinates the annual Point in Time survey and is responsible for the review and publication of the survey when completed, to educate the public about the presence of homelessness in their communities. This committee is made up of representatives from each of the 7 counties in our CoC	Monthly or more
Coordinating Committee to End Metropolitan Homelessness	Actively works with each of the 7 counties to help deliver or broker technical assistance to develop local plans to end homeless and to encourage adoption of a regional plan to end homelessness. Addresses intra-jurisdictional barriers and makes recommendations on more seamless housing and service provision.	Monthly or more
HMIS Committee	Supervises the administration of and sets policy for the HMIS for the metro Denver region. This committee is responsible for the selection of HMIS software and for the oversight of our HMIS lead organization.	Monthly or more
MDHI Super NOFA Committee	Reviews NOFA renewal and new program/project applications to COC; assesses projet quality and performance; provides ranking recommendations utilizing scoring tool; prepares/reviews and approves presentation to entire Board of Exhibit 1 with attachments. Meets frequently during NOFA process.	Monthly or more

If any group meets less than quarterly, please explain (limit 750 characters):

1D. Continuum of Care (CoC) Member Organizations Detail

Instructions:

- Provide information about each CoC member organization, including individuals that are part of the CoC planning process. For each member organization, provide information on the following:
- Organization name; Enter the name of the organization or individual. If the individual is a victim of domestic violence, do not enter their actual name.
 - Type of membership; Public, private, or individual
 - Type of organization
 - Organization role in the CoC planning process
 - Subpopulations represented; No more than 2 may be selected
 - Services provided, if applicable

Name of organization or individual: CO Department of Human Services

Type of Membership: Public Sector
(public, private, or individual)

Type of Organization: State government agencies
(Content depends on "Type of Membership" selection)

Role(s) of the organization: Committee/Sub-committee/Work Group, Attend
(select all that apply) 10-year planning meetings during past 12 months

Subpopulation(s) represented by the organization: Youth, Seriously Mentally Ill
(No more than two subpopulations)

Does the organization provide direct services to homeless people? Yes

Services provided to homeless persons and families: Mental health, Rental Assistance, Alcohol/Drug Abuse
(select all that apply)

1D. Continuum of Care (CoC) Member Organizations Detail

Instructions:

Provide information about each CoC member organization, including individuals that are part of the CoC planning process. For each member organization, provide information on the following:

- Organization name; Enter the name of the organization or individual. If the individual is a victim of domestic violence, do not enter their actual name.
- Type of membership; Public, private, or individual
- Type of organization
- Organization role in the CoC planning process
- Subpopulations represented; No more than 2 may be selected
- Services provided, if applicable

Name of organization or individual: Randle Loeb

Type of Membership: Individual
(public, private, or individual)

Type of Organization: Formerly Homeless
(Content depends on "Type of Membership" selection)

Role(s) of the organization: Primary Decision Making Group, Attend Consolidated Plan planning meetings during past 12 months, Committee/Sub-committee/Work Group, Attend 10-year planning meetings during past 12 months, Attend Consolidated Plan focus groups/public forums during past 12 months
(select all that apply)

Subpopulation(s) represented by the organization: Seriously Mentally Ill
(No more than two subpopulations)

Does the organization provide direct services to homeless people? No

Services provided to homeless persons and families: Not Applicable
(select all that apply)

Name of organization or individual: Love, INC Littleton

Type of Membership: Private Sector
(public, private, or individual)

Type of Organization: Faith-based organizations
(Content depends on "Type of Membership" selection)

Role(s) of the organization: Attend 10-year planning meetings during past 12 months
(select all that apply)

Subpopulation(s) represented by the organization: Seriously Mentally Ill, Substance Abuse
(No more than two subpopulations)

Does the organization provide direct services to homeless people? Yes

Services provided to homeless persons and families: Counseling/Advocacy, Utilities Assistance, Transportation, Rental Assistance
(select all that apply)

1E. Continuum of Care (CoC) Project Review and Selection Process

Instructions:

The CoC solicitation of projects and the project selection process should be conducted in a fair and impartial manner. For each of the following items, indicate all of the methods and processes the CoC used in the past year to assess the performance, effectiveness, and quality of all requested new and renewal project(s).

In addition, indicate if any written complaints have been received by the CoC regarding any CoC matter in the last 12 months, and how those matters were addressed and/or resolved.

Open Solicitation Methods: (select all that apply) f. Announcements at Other Meetings, e. Announcements at CoC Meetings, c. Responsive to Public Inquiries, b. Letters/Emails to CoC Membership, d. Outreach to Faith-Based Groups

Rating and Performance Assessment Measure(s): (select all that apply) b. Review CoC Monitoring Findings, g. Site Visit(s), k. Assess Cost Effectiveness, q. Review All Leveraging Letters (to ensure that they meet HUD requirements), c. Review HUD Monitoring Findings, r. Review HMIS participation status, d. Review Independent Audit, j. Assess Spending (fast or slow), p. Review Match, i. Evaluate Project Readiness, e. Review HUD APR for Performance Results, n. Evaluate Project Presentation, h. Survey Clients, o. Review CoC Membership Involvement, f. Review Unexecuted Grants, a. CoC Rating & Review Committee Exists, m. Assess Provider Organization Capacity, l. Assess Provider Organization Experience

Voting/Decision-Making Method(s): (select all that apply) a. Unbiased Panel/Review Committee, e. Consensus (general agreement), d. One Vote per Organization, b. Consumer Representative Has a Vote, f. Voting Members Abstain if Conflict of Interest

Were there any written complaints received by the CoC regarding any matter in the last 12 months? No

If yes, briefly describe complaint and how it was resolved (limit 750 characters):

1F. Continuum of Care (CoC) Housing Inventory Count--Change in Beds Available

For each housing type, indicate if there was a change (increase or reduction) in the total number of beds counted in the 2010 Housing Inventory Count (HIC) as compared to the 2009 HIC. If there was a change, please describe the reasons in the space provided for each housing type. If the housing type does not exist in your CoC, please select "Not Applicable" and indicate that in the text box for that housing type.

Emergency Shelter: Yes

Briefly describe the reason(s) for the change in Emergency Shelter beds, if applicable (limit 750 characters):

2010 Total Emergency Shelter (ES) housing inventory: decreased 132 beds over all categories: 2009; 1,650 beds and 2010; 1,497 beds this year. ES FAMILY BEDS SUMMARY: Net increase of 30 beds. Net New Beds = 10 Added: 10 new over 2 agencies. 20 beds added due to changes in family size. ES INDIVIDUAL BEDS: Net decrease = 183 individual beds. NEW BEDS: 10 beds added by 1 agency. DECREASES 2010: 183 beds removed from ES Individual beds by 2 agencies. 140 of these beds were lost due to Salvation Army reauthorizing their ES to Transitional housing. The other 43 beds were lost due to facilities closing and loss of funding.

Safe Haven: No

Briefly describe the reason(s) for the change in Safe Haven beds, if applicable (limit 750 characters):

There were no changes to the Safe Haven bed numbers.

Transitional Housing: Yes

Briefly describe the reason(s) for the change in Transitional Housing beds, if applicable (limit 750 characters):

2010 Total Transitional Housing (TH) housing inventory: increased by 151 beds over all categories: 2009; 1,828 beds and 2010; 1,979 beds this year. TH FAMILY BEDS SUMMARY: Net decrease of 48 beds. DECREASES: 48 lost beds reported due to changes in family size. TH INDIVIDUAL BEDS: Net increase = 199 individual beds. NEW BEDS: 140 beds added by 1 agency which moved from ES to TH. (54 beds were added by three agencies.)

Permanent Housing: Yes

Briefly describe the reason(s) for the change in Permanent Housing beds, if applicable (limit 750 characters):

2010 Total Permanent Housing (PH) housing inventory: Increased by 198 beds over all categories: 2009; 1,961 beds and 2010; 2,159 beds this year. PH FAMILY BEDS SUMMARY: Net increase of 28 beds. Added: 28 new over 2 agencies. All 28 beds added are due to changes in family size. PH INDIVIDUAL BEDS: Net increase = 198 individual beds. NEW BEDS: 198 beds added by 4 agencies

CoC certifies that all beds for homeless persons were included in the Housing Inventory Count (HIC) as reported on the Homelessness Data Exchange (HDX), regardless of HMIS participation and HUD funding: Yes

1G. Continuum of Care (CoC) Housing Inventory Count - Data Sources and Methods

Instructions:

Complete the following items based on data collection methods and reporting for the Housing Inventory Count (HIC), including Unmet need determination. The information should be based on a survey conducted in a 24-hour period during the last ten days of January 2010. CoCs were expected to report HIC data on the Homelessness Data Exchange (HDX).

Indicate the type of data sources or methods used to complete the housing inventory count: (select all that apply) HMIS plus housing inventory survey

Indicate the steps taken to ensure the accuracy of the data collected and included in the housing inventory count: (select all that apply) Follow-up, Instructions, Updated prior housing inventory information, Confirmation, Training, HMIS

Must specify other:

Final housing inventory chart was reviewed and approved by CoC Board and HMIS Oversight Committee. In addition, each agency received a survey to complete to help update the chart.

Indicate the type of data or method(s) used to determine unmet need: (select all that apply): Unsheltered count, HUD unmet need formula, HMIS data, Other, Local studies or non-HMIS data sources, Housing inventory, Stakeholder discussion, Provider opinion through discussion or survey forms

Specify "other" data types:

MDHI Board members who administer homeless housing programs met to review and agree upon percent of clients needing specific types of programs based on family type and where persons spent last night.

If more than one method was selected, describe how these methods were used together (limit 750 characters):

Bed and unit inventory was taken from the Housing Inventory Chart, including beds under development. Latest PIT study completed in HMIS and HUD unmet need formula was used to calculate total persons needing beds, including what percentage of clients need which type of program based on family type and where persons spent last night as recorded in the PIT pulled from HMIS. Unsheltered count is included within the PIT. HMIS data was used for the permanent housing calculations, since permanent housing was not included in PIT study. Info also from stakeholders & providers who gave input on how many person turned away or were unable to find shelter.

2A. Homeless Management Information System (HMIS) Implementation

Intructions:

All CoCs are expected to have a functioning Homeless Management Information System (HMIS). An HMIS is a computerized data collection application that facilitates the collection of information on homeless individuals and families using residential or other homeless services and stores that data in an electronic format. CoCs should complete this section in conjunction with the lead agency responsible for the HMIS. All information should reflect the status of HMIS implementation as of the date of application submission.

For additional instructions, refer to the ¿Exhibit 1 Detailed Instructions¿ which can be accessed on the left-hand menu bar.

- Select the HMIS implementation coverage area:** Regional (multiple CoCs)
- Select the CoC(s) covered by the HMIS: (select all that apply)** CO-504 - Colorado Springs/EI Paso County CoC, CO-500 - Colorado Balance of State CoC, CO-503 - Metropolitan Denver Homeless Initiative
- Is the HMIS Lead Agency the same as the CoC Lead Agency?** No
- Does the CoC Lead Agency have a written agreement with the HMIS Lead Agency?** Yes
- Has the CoC selected an HMIS software product?** Yes
- If "No" select reason:**
- If "Yes" list the name of the product:** Tapestry
- What is the name of the HMIS software company?** VisionLink
- Does the CoC plan to change HMIS software within the next 18 months?** Yes
- Indicate the date on which HMIS data entry started (or will start): (format mm/dd/yyyy)** 01/01/2006
- Indicate the challenges and barriers impacting the HMIS implementation: (select all the apply):** HMIS unable to generate unduplicated count of homeless persons, HMIS is unable to generate data for PIT counts for sheltered persons, Inability to integrate data from providers with legacy data systems, Inadequate resources, HMIS unable to generate CoC- wide data or reports
- If CoC indicated that there are no challenges or barriers impacting HMIS implementation, briefly describe either why CoC has no challenges or how all barriers have been overcome (limit 1000 characters).**

If CoC identified one or more challenges or barriers impacting HMIS implementation, briefly describe how the CoC plans to overcome them (limit 1000 characters).

Current HMIS software package is limited in reporting, sharing and user friendliness areas. HMIS Lead Organization has developed in-house crystal reporting for user agencies in order to complete Data Quality, APRs and AHAR. All data is exportable from the system. The process is difficult and time consuming, requiring sophisticated data analysis. However, HMIS staff has been provided with the training and software necessary to accomplish this task. MDHI is in the process of changing software vendors to ensure compliance with new data elements and reporting requirements. New software is to be in place January 2011 that will eliminate many of these challenges and/or barriers.

2B. Homeless Management Information System (HMIS) Lead Agency

Enter the name and contact information for the HMIS Lead Agency. This is the organization responsible for implementing the HMIS within a CoC. There may only be one HMIS Lead Agency per CoC.

Organization Name Colorado Coalition for the Homeless

Street Address 1 3111 Champa St

Street Address 2

City Denver

State Colorado

Zip Code 80205

Format: xxxxx or xxxxx-xxxx

Organization Type Non-Profit

If "Other" please specify

Is this organization the HMIS Lead Agency in more than one CoC? Yes

2C. Homeless Management Information System (HMIS) Contact Person

Enter the name and contact information for the primary contact person at the HMIS Lead Agency.

Prefix: Mrs.
First Name Beverly
Middle Name/Initial Ann
Last Name Cisse

2D. Homeless Management Information System (HMIS) Bed Coverage

Instructions:

HMIS bed coverage measures the level of provider participation in a CoC's HMIS. Participation in HMIS is defined as the collection and reporting of client level data either through direct data entry into the HMIS or into an analytical database that includes HMIS data on an at least annual basis.

HMIS bed coverage is calculated by dividing the total number of year-round beds located in HMIS-participating programs by the total number of year-round beds in the Continuum of Care (CoC), after excluding beds in domestic violence (DV) programs. HMIS bed coverage rates must be calculated separately for emergency shelters, transitional housing, and permanent supportive housing.

The 2005 Violence Against Women Act (VAWA) Reauthorization bill restricts domestic violence provider participation in HMIS unless and until HUD completes a public notice and comment process. Until the notice and comment process is completed, HUD does not require nor expect domestic violence providers to participate in HMIS. HMIS bed coverage rates are calculated excluding domestic violence provider beds from the universe of potential beds.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Indicate the HMIS bed coverage rate (%) for each housing type within the CoC. If a particular housing type does not exist anywhere within the CoC, select "Housing type does not exist in CoC" from the drop-down menu.

* Emergency Shelter (ES) Beds	76-85%
* Safe Haven (SH) Beds	86%+
* Transitional Housing (TH) Beds	86%+
* Permanent Housing (PH) Beds	86%+

How often does the CoC review or assess its HMIS bed coverage? At least Monthly

If bed coverage is 0-64%, describe the CoC's plan to increase this percentage during the next 12 months:

2E. Homeless Management Information System (HMIS) Data Quality

Instructions:

HMIS data quality refers to the extent that data recorded in an HMIS accurately reflects the extent of homelessness and homeless services in a local area. In order for the HMIS to present accurate and consistent information on homelessness, it is critical that an HMIS have the best possible representation of reality as it relates to homeless people and the programs that serve them. Specifically, it should be a CoCs goal to record the most accurate, consistent and timely information in order to draw reasonable conclusions about the extent of homelessness and the impact of homeless services in its local area. Answer the questions below related to the steps the CoC takes to ensure the quality of its data. In addition, CoCs will indicate their participation in the Annual Homelessness Assessment Report (AHAR) for 2009 and 2010 as well as whether or not they plan to contribute data to the Homelessness Pulse project in 2010.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Indicate the percentage of unduplicated client records with null or missing values on a day during the last ten days of January 2010.

Universal Data Element	Records with no values (%)	Records where value is refused or unknown (%)
* Social Security Number	2%	3%
* Date of Birth	2%	2%
* Ethnicity	2%	3%
* Race	2%	0%
* Gender	1%	0%
* Veteran Status	2%	3%
* Disabling Condition	3%	3%
* Residence Prior to Program Entry	3%	4%
* Zip Code of Last Permanent Address	2%	6%
* Name	2%	0%

How frequently does the CoC review the quality of client level data? At least Monthly

How frequently does the CoC review the quality of program level data? At least Monthly

Describe the process, extent of assistance, and tools used to improve data quality for agencies participating in the HMIS (limit 750 characters):

System data are extracted from the HMIS database and processed through a SQL-server in order to generate Continuum-wide and agency reports. Agencies are provided with four monthly system-generated data quality reports by program: 1)Fix Master list of universal issues; 2)Data completeness/participation report[(bed capacity/(enrolled clients - overdue clients)]; 3)Duplicate Client report; and a 4)Current Program roster, which are reviewed by HMIS staff. HMIS staff contact agencies and provide technical assistance when; program completeness scores fall below 90%, duplicate clients exist, and when program participation rates fall below 90%. Monthly CoC-wide reports are created using the same procedure and reviewed by management staff.

Describe the existing policies and procedures used to ensure that valid program entry and exit dates are recorded in the HMIS (limit 750 characters):

All HMIS users must attend training prior to HMIS data entry. Specific attention is to issues of program entry and exit date criteria. Monthly Agency data quality reports (Participation Report/Current Client Roster) enable HMIS & agency staff to monitor problems in this area. Clients enrolled in a program longer than an allocated time are identified (i.e. "overdue" status) on both reports. This status is calculated when length of stay (system calculated as exit date minus entry date) is greater than a static number of program days allowed-assigned by HMIS staff and based on grant criteria (TH=730 days). Overdue clients are to be exited from programs within 5 business days. Data validation identifying out-of-date ranges is available.

Indicate which reports the CoC or subset of the CoC submitted usable data: (Select all that apply) 2009 AHAR, 2009 AHAR Supplemental Report on Homeless Veterans

Indicate which reports the CoC or subset of the CoC plans to submit usable data: (Select all that apply) 2010 AHAR Supplemental Report on Homeless Veterans, 2010 AHAR

Does your CoC plan to contribute data to the Homelessness Pulse project in 2010? No

2F. Homeless Management Information System (HMIS) Data Usage

Instructions:

CoCs can use HMIS data for a variety of applications. These include, but are not limited to, using HMIS data to understand the characteristics and service needs of homeless people, to analyze how homeless people use services, and to evaluate program effectiveness and outcomes.

In this section, CoCs will indicate the frequency in which it engages in the following.

- Integrating or warehousing data to generate unduplicated counts
- Point-in-time count of sheltered persons
- Point-in-time count of unsheltered persons
- Measuring the performance of participating housing and service providers
- Using data for program management
- Integration of HMIS data with data from mainstream resources

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC uses HMIS data for each of the following:

Integrating or warehousing data to generate unduplicated counts:	At least Monthly
Point-in-time count of sheltered persons:	At least Annually
Point-in-time count of unsheltered persons:	At least Semi-annually
Measuring the performance of participating housing and service providers:	At least Annually
Using data for program management:	At least Annually
Integration of HMIS data with data from mainstream resources:	Never

2G. Homeless Management Information System (HMIS) Data and Technical Standards

Instructions:

In order to enable communities across the country to collect homeless services data consistent with a baseline set of privacy and security protections, HUD has published HMIS Data and Technical Standards. The standards ensure that every HMIS captures the information necessary to fulfill HUD reporting requirements while protecting the privacy and informational security of all homeless individuals.

Each CoC is responsible for ensuring compliance with the HMIS Data and Technical Standards. CoCs may do this by completing compliance assessments on a regular basis and through the development of an HMIS Policy and Procedures manual. In the questions below, CoCs are asked to indicate the frequency in which they complete compliance assessment.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

For each of the following HMIS privacy and security standards, indicate the frequency in which the CoC and/or HMIS Lead Agency complete a compliance assessment:

* Unique user name and password	At least Quarterly
* Secure location for equipment	At least Quarterly
* Locking screen savers	At least Quarterly
* Virus protection with auto update	At least Quarterly
* Individual or network firewalls	At least Quarterly
* Restrictions on access to HMIS via public forums	At least Quarterly
* Compliance with HMIS Policy and Procedures manual	At least Quarterly
* Validation of off-site storage of HMIS data	At least Quarterly

How often does the CoC Lead Agency assess compliance with the HMIS Data and Technical Standards? At least Monthly

How often does the CoC Lead Agency aggregate data to a central location (HMIS database or analytical database)? At least Monthly

Does the CoC have an HMIS Policy and Procedures manual? Yes

If 'Yes' indicate date of last review or update by CoC: 08/26/2006

If 'No' indicate when development of manual will be completed (mm/dd/yyyy):

2H. Homeless Management Information System (HMIS) Training

Instructions:

Providing regular training opportunities for homeless assistance providers that are participating in a local HMIS is a way that CoCs can ensure compliance with the HMIS Data and Technical Standards. In the section below, CoCs will indicate how frequently they provide certain types of training to HMIS participating providers.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Indicate the frequency in which the CoC or HMIS Lead Agency offers each of the following training activities:

* Privacy/Ethics training	At least bi-monthly
* Data Security training	At least bi-monthly
* Data Quality training	At least Monthly
* Using Data Locally	At least Monthly
* Using HMIS data for assessing program performance	At least Monthly
* Basic computer skills training	Never
* HMIS software training	At least bi-monthly

2I. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulation: Point-In-Time (PIT) Count

Instructions:

Although CoCs are only required to conduct a one-day point-in-time count every two years, HUD strongly encourages CoCs to conduct a point-in-time count annually, if resources allow. The purpose of the point-in-time count is to further understand the number and characteristics of people sleeping in shelters, on the streets, or in other locations not meant for human habitation.

Below, CoCs will indicate how frequently they will conduct a point-in-time count and what percentage of their homeless service providers participate. CoCs are also asked to describe whether or not there were differences between the most recent point-in-time count and the one prior. CoCs should indicate in the narrative which years they are comparing.

How frequently does the CoC conduct a point-in-time count? biennially (every other year)

Enter the date in which the CoC plans to conduct its next point-in-time count: (mm/dd/yyyy) 01/25/2011

Indicate the percentage of homeless service providers supplying population and subpopulation data for the point-in-time count that was collected via survey, interview, and/or HMIS.

Emergency Shelter: 100%
Transitional Housing: 100%

Comparing the most recent point-in-time count to the previous point-in-time count, describe any factors that may have resulted in an increase, decrease, or no change in both the sheltered and unsheltered population counts (limit 1500 characters).

We did not do a PIT in 2010, so we are left with the data we presented last year. As we stated in 2009, we utilized HMIS for the first time that January and ran into many challenges in the data analysis process which, among other things, limited our ability to compare results to previous years and even raised some questions as to accuracy of certain findings. Some numbers were useable and the increase in first time homelessness was a reflection of what was happening to the economy across the nation. Loss of job and then housing was the most frequent answer to 1st time homeless. We also had an increase in children due to the increase in the number of families losing jobs and then being evicted. We are looking forward to completing our 2011 PIT survey and, with our new HMIS software in place CoC wide in mid to late 2011, are hopeful we will be able to conduct annual PIT's to really enable the CoC to adjust strategic planning efforts around valid, usable data. We are hopeful with the slight improvement in the regional job market as well with the use of HPRP dollars, we will be able to show we stemmed the tide.

2J. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulations:Methods

Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on *guesstimates*. CoCs may use one or more methods to count sheltered homeless persons. This form asks CoCs to identify and describe which method(s) they use to conduct their point-in-time counts. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the *Exhibit 1 Detailed Instructions* which can be accessed on the left-hand menu bar.

**Indicate the method(s) used to count sheltered homeless persons during the last point-in-time count:
(Select all that apply):**

Survey Providers:	<input type="checkbox"/>
HMIS:	<input checked="" type="checkbox"/>
Extrapolation:	<input type="checkbox"/>
Other:	<input type="checkbox"/>

If Other, specify:

Describe the methods used by the CoC, as indicated above, to collect data on the sheltered homeless population during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data (limit 1500 characters).

MDHI conducted the Point-in-Time count over a 24-hr period on 1-27-09. The methodology changed this year from prior years as we tried to capture the best estimate of the number of homeless persons in our 7 county metro area. Info from paper surveys collected from homeless by outreach volunteers and service providers was reviewed and entered into the Colorado HMIS and combined with info already in this data base from participating agencies that enter this data directly upon intake and exit. PIT survey forms were standardized to meet HMIS standards resulting in some changes to questions that had been asked in prior years. Inputting the paper surveys into our HMIS allowed for the assignment of a unique PIN which was used to eliminate duplicate counts. Sheltered population is based on responses to the survey question: Where did you spend last night? Respondents who indicated that they spent last night in ES, TH or motels paid for with vouchers were included in the sheltered count. Data entered directly into the HMIS system for persons residing in 30-120 day ES programs and in 2 year TH programs may have been entered prior to the count date. However, all persons still residing in those programs would be captured by the HMIS system. In addition, an EXCEL spreadsheet was created so that Domestic Violence Shelters could report aggregate information on clients served on 1-27-09 using the same data fields contained within the HMIS System.

2K. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Collection

Instructions:

CoCs are required to produce data on seven subpopulations. These subpopulations are the chronically homeless, severely mentally ill, chronic substance abuse, veterans, persons with HIV/AIDS, victims of domestic violence, and unaccompanied youth (under 18). Subpopulation is required for sheltered homeless persons and optional for unsheltered homeless persons, with the exception of chronically homeless persons. Sheltered chronically homeless people are those living in emergency shelters only.

In the 2010 CoC NOFA, the definition of Chronically Homeless Person has been expanded to include families with at least one adult member who has a disabling condition. The family must meet all the other standards for chronic homelessness in Section 4.d. of the 2010 NOFA, Definitions and Concepts. Because the definition of chronically homeless at the time of either the 2009 or 2010 point-in-time count was still limited to individuals, CoCs are only reporting on that data on this section of the Exhibit 1.

CoCs may use a variety of methods to collect subpopulation information on sheltered homeless persons and may employ more than one in order to produce the most accurate data. This form asks CoCs to identify and describe which method(s) they use to gather subpopulation information for sheltered populations during the most recent point-in-time count. The description should demonstrate how the method(s) was used to produce an accurate count.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Indicate the method(s) used to gather and calculate subpopulation data on sheltered homeless persons (select all that apply):

	HMIS	<input checked="" type="checkbox"/>
	HMIS plus extrapolation:	<input type="checkbox"/>
Sample of PIT interviews plus extrapolation:		<input type="checkbox"/>
	Sample strategy:	
	Provider expertise:	<input type="checkbox"/>
	Interviews:	<input type="checkbox"/>
	Non-HMIS client level information:	<input type="checkbox"/>
	None:	<input type="checkbox"/>
	Other:	<input type="checkbox"/>

If Other, specify:

Describe the methods used by the CoC, as indicated above, to collect data on the sheltered homeless subpopulations during the most recent point-in-time count. Response should indicate how the method(s) selected above were used in order to produce accurate data on all of the sheltered subpopulations (Limit 1500 characters).

Info from paper surveys collected from homeless by outreach volunteers and service providers was reviewed and entered into the Colorado HMIS. This was added to current information already entered in HMIS by participating agencies. PIT survey forms were standardized to meet HMIS standards resulting in some changes to questions that had been asked in prior years. Inputting the paper surveys into our HMIS allowed for the assignment of a unique PIN which was used to eliminate duplicate counts. Sheltered population is based on responses to the survey question: Where did you spend last night? Respondents who indicated that they spent last night in ES, TH or motels paid for with vouchers were included in the sheltered count. Data entered directly into the HMIS system for persons residing in 30-120 day ES programs and in 2 year TH programs may have been entered prior to the count date. However, all persons still residing in those programs would be captured by the HMIS system. In addition, an EXCEL spreadsheet was created so that Domestic Violence Shelters could report aggregate information on clients served on 1-27-09 using the same data fields contained within the HMIS System.

2L. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Data Quality

Instructions:

The data collected during point-in-time counts is vital for both CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level, plan services and programs to appropriately address local needs, and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country, provide Congress and OMB with information on services provided, gaps in service, and performance, and to inform funding decisions. Therefore, it is vital that the quality of data reported is high. CoCs may undertake one or more actions to improve the quality of the sheltered population data. This form asks CoCs to identify the steps they take to ensure data quality.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the sheltered population count: (select all that apply)

Instructions:	<input checked="" type="checkbox"/>
Training:	<input checked="" type="checkbox"/>
Remind/Follow-up	<input checked="" type="checkbox"/>
HMIS:	<input checked="" type="checkbox"/>
Non-HMIS de-duplication techniques:	<input type="checkbox"/>
None:	<input type="checkbox"/>
Other:	<input type="checkbox"/>

If Other, specify:

If selected, describe the non-HMIS de-duplication techniques used by the CoC to ensure the data quality of the sheltered persons count (limit 1000 characters).

2M. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation: Methods

Instructions:

Accuracy of the data reported in point-in-time counts is vital. Data produced from these counts must be based on reliable methods and not on *guesstimates*. CoCs may use one or more methods to count unsheltered homeless persons. This form asks CoCs to identify which method(s) they use to conduct their point-in-time counts.

For additional instructions, refer to the *Exhibit 1 Detailed Instructions* which can be accessed on the left-hand menu bar.

Indicate the method(s) used to count unsheltered homeless persons: (select all that apply)

Public places count:	<input type="checkbox"/>
Public places count with interviews:	<input checked="" type="checkbox"/>
Service-based count:	<input type="checkbox"/>
HMIS:	<input checked="" type="checkbox"/>
Other:	<input type="checkbox"/>

If Other, specify:

The CoC's comprehensive demographic information was collected upon intake by agencies that serve the homeless throughout the seven counties and then entered into the HMIS system either by each agency or by the temporary data entry workers. Participating agencies included emergency shelters, day shelters, transitional housing facilities, soup kitchens, county departments of human services, workforce development programs, day labor programs, outreach programs, head start agencies, faith based organizations, mental health centers, food banks, and health care clinics. In addition, outreach teams conducted surveys with persons sleeping on the streets and other public places. The information from paper surveys was entered into HMIS and checked for duplication. We then used the HMIS information to determine the count of unsheltered.

2N. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation - Level of Coverage

Instructions:

CoCs may employ numerous approaches when counting unsheltered homeless people. CoCs first need to determine where they will look to count this population. They may canvass an entire area or only those locations where homeless persons are known to sleep for example. This form asks CoCs to indicate the level of coverage they incorporate when conducting their unsheltered count.

For additional instructions, refer to the *Exhibit 1 Detailed Instructions* which can be accessed on the left-hand menu bar.

Indicate where the CoC located the unsheltered homeless persons (level of coverage) that were counted in the last point-in-time count: Complete Coverage

If Other, specify:

20. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation - Data Quality

Instructions:

The data collected during point-in-time counts is vital for both CoCs and HUD. Communities need accurate data to determine the size and scope of homelessness at the local level, plan services and programs to appropriately address local needs, and measure progress in addressing homelessness. HUD needs accurate data to understand the extent and nature of homelessness throughout the country, provide Congress and OMB with information on services provided, gaps in service, and performance, and to inform funding decisions. Therefore, it is vital that the quality of data reported is high. CoCs may undertake one or more actions to improve the quality of the unsheltered population data. This form asks CoCs to identify the steps they take to ensure data quality.

All CoCs should be engaging in activities to reduce the occurrence of counting unsheltered persons more than once during a point-in-time count. These strategies are known as de-duplication techniques. De-duplication techniques should always be implemented when the point-in-time count extends beyond one night or takes place during the day at service locations used by homeless people that may or may not use shelters. On this form, CoCs are asked to describe their de-duplication techniques. Finally, CoCs are asked to describe their outreach efforts to identify and engage homeless individuals and families.

For additional instructions, refer to the *Exhibit 1 Detailed Instructions* which can be accessed on the left-hand menu bar.

Indicate the steps taken by the CoC to ensure the quality of the data collected for the unsheltered population count: (select all that apply)

Training:	<input checked="" type="checkbox"/>
HMIS:	<input checked="" type="checkbox"/>
De-duplication techniques:	<input checked="" type="checkbox"/>
Other:	<input type="checkbox"/>

If Other, specify:

Describe the techniques used by the CoC to reduce the occurrence of counting unsheltered homeless persons more than once during the most recent point-in-time count (limit 1500 characters):

Agency staff, volunteers, and outreach workers were instructed to complete only one survey for each homeless individual or family and the importance of obtaining the respondent's initials, age, birth month and gender. When the surveys were input into HMIS, a unique identification pin for each respondent was created using first initial, middle initial, first 3 letters of the last name, birth month, age & gender. A survey was classified as a duplicate if it met all three of the following conditions: the unique identifies matched exactly; the surveys were submitted by the same agency; the agency was located in an urban area where the caseload is often large enough that volunteers may have interviewed the same person more than once. For respondents where a variable was missing in the identifier, other variables were considered in determining duplication, including language, military service, ethnicity, race, and the city and county in which the respondent spent the night

Describe the CoCs efforts to reduce the number of unsheltered homeless households with dependent children. Discussion should include the CoCs outreach plan (limit 1500 characters):

Homeless service agencies throughout the CoC are focused on reducing the number of unsheltered homeless households with dependent children. Through the Coordinating Committee, information on services available throughout the metro wide area are shared with numerous participants/programs. Families identified through outreach efforts at various agencies are directed to the places or program able to help with the situation. The Colorado Coalition for the Homeless operates a family service center in downtown Denver to meet the emergency needs of homeless families. Referrals to family shelters are made until shelter beds are filled for the day. CCH staff then provides motel vouchers to families unable to access available emergency shelters. The Denver Department of Human Services provides additional motel vouchers to families. After 5 pm, families may obtain a motel voucher from the Samaritan House shelter. During severe weather several CoC participants open voucher and emergency shelter programs, several in conjunction with the faith based community. Many of our CoC participating agencies received HPRP grants and used them to expand outreach and placement efforts to reduce the length of time families spend in shelters or to keep them from going there in the first place, thereby reducing the number of unsheltered families.

Describe the CoCs efforts to identify and engage persons that routinely sleep on the streets or other places not meant for human habitation (limit 1500 characters):

The Denver Outreach Collaborative is a multi-agency collaborative conducting street outreach to homeless individuals. The Colorado Coalition for the Homeless is the lead agency. Outreach is provided on a coordinated basis 16 hours each day, seven days per week. The approach to outreach utilizes engagement and trust building that is critical to reach chronically homeless persons with disabilities. Homeless are sought out at known gathering places; behind identified buildings; under identified bridges; in identified vacant lots; in Wal-Mart parking lots; in identified areas of the malls; bus stations; and any other locations that might be shared or identified with outreach workers.

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 1: Create new permanent housing beds for chronically homeless persons.

Instructions:

Ending chronic homelessness continues to be a HUD priority. CoCs can do this by creating new permanent housing beds that are specifically designated for this population. In the 2010 NOFA, a chronically homeless person is defined as an unaccompanied homeless individual with a disabling condition or a family with at least one adult member who has a disabling condition who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

On this section, CoCs are to describe their short-term and long-term plans for creating new permanent housing beds for chronically homeless persons that meet the definition in the 2010 CoC NOFA. In addition, CoCs will indicate the current number of permanent housing beds designated for chronically homeless persons. This number should match the number of beds reported in the 2010 Housing Inventory Count (HIC) and entered onto the Homeless Data Exchange (HDX). CoCs will then enter number of permanent housing beds they expect to have in place in 12-months, 5-years, and 10-years. These future estimates should be based on the definition of chronically homeless in the 2010 CoC NOFA.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to create new permanent housing beds for persons that meet HUD's definition of chronically homeless (limit 1000 characters).

MDHI will continue to support housing providers and developers to target resources made available through the State DOH, CHFA, Community Development Offices of the 7 counties represented as well Denver's Road Home to access city funds, CDBG, HOME funds and LIHTC to develop new PH for chronically homeless individuals and families as well as utilizing the PHB this year to bring 14 more beds on line within 8 months. Bring on-line in the next 12 months 50 new PH units for homeless initially funded by 2008's SuperNOFA PHB which include 16 units set aside for Chronically Homeless and 34 for homeless and begin construction on another 50 (16 of which will be for Chronically Homeless) more funded through 2009's application. Continue work with Jurisdictional Housing Authorities to set aside new Section 8 vouchers annually for homeless people at or below 30% AMI and to also participate in developments by setting aside some of their vouchers for project basing.

Describe the CoCs long-term (10-year) plan to create new permanent housing beds for persons that meet HUD's definition of chronically homeless (limit 1000 characters).

Coord. Com. continue work with cities, counties, sponsors & providers of housing in CoC thru Regional Plan to maximize participation in old & new funding opportunities (HPRP, NSP) to develop new PH units for individuals and families. Continue work identifying opportunity zones for placement of affordable housing. Engage the faith based communities to increase efforts to sponsor homeless families and individuals with housing assistance. Work with private developers and non-profits to foster innovative design of PH in an effort to incorporate original and cost-saving designs. MDHI continue to educate the public about the need for PH in an effort to raise awareness and acceptance. Work with jurisdictional housing authorities to provide vouchers for those at or below 30% AMI. MDHI to facilitate tighter partnerships and linkages among service providers as well as solicit input and suggestions from homeless & overall community on the most effective strategies to address homelessness

How many permanent housing beds do you currently have in place for chronically homeless persons? 797

In 12-months, how many permanent housing beds designated for the chronically homeless do you plan to have in place and available for occupancy? 827

In 5-years, how many permanent housing beds designated for the chronically homeless do you plan to have in place and available for occupancy? 903

In 10-years, how many permanent housing beds designated for the chronically homeless do you plan to have in place and available for occupancy? 1,000

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 2: Increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or more.

Instructions:

Increasing the self-sufficiency and stability of permanent housing program participants is an important outcome measurement of HUD's homeless assistance programs. Each SHP-PH and S+C project is expected to report the percentage of participants remaining in permanent housing for more than six months on its Annual Progress Report (APR). CoCs then use this data from all of its permanent housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of participants remaining in all of its CoC funded permanent housing projects (SHP-PH or S+C) to at least 77 percent. In addition, CoCs will indicate the current percentage of participants remaining in these projects, as indicated on form 4C, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded permanent housing projects (SHP-PH or S+C) for which an APR was required, should indicate this in both of the narratives below and enter 0 in the first numeric field below.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to increase the percentage of participants remaining in CoC funded permanent housing projects for at least six months to 77 percent or higher (limit 1000 characters).

Biannually review project APR's to assess progress towards increased retention and provide technical assistance and share best practices as needed. Assist at least 300 homeless individuals on an annual basis to apply for and receive benefits and services through programs already in CoC such as BART (Benefits and Acquisition Retention Team) and HPRP while available to increase PH retention. Continue implementation of the IDDT (Integrated Dual Disorders Treatment Program) used throughout our continuum so that homeless persons with co-occurring disorders, are more likely to succeed in housing stability.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants remaining in CoC funded permanent housing for at least six months to 77 percent or higher (limit 1000 characters).

Continued monitoring of APR's to identify barriers as well as successes in housing retention. Actively share ideas and programs that are working with other CoC members to encourage best practices when it comes to use of funding for programs to ensure maximized housing retention. Work on cross-jurisdictional strategies to make access to services more easily attainable to enable housing retention. Engage homeless and formerly homeless in active discussion with jurisdictional officials about barriers to staying housed and work as collaborators to eliminate them.

What is the current percentage of participants remaining in CoC funded permanent housing projects for at least six months? 78

In 12-months, what percentage of participants will have remained in CoC funded permanent housing projects for at least six months? 78

In 5-years, what percentage of participants will have remained in CoC funded permanent housing projects for at least six months? 83

In 10-years, what percentage of participants will have remained in CoC funded permanent housing projects for at least six months? 85

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 3: Increase the percentage of participants in CoC funded transitional housing that move into permanent housing to 65 percent or more.

Instructions:

The ultimate objective of transitional housing is to help homeless families and individuals obtain permanent housing and self-sufficiency. Each SHP-TH project is expected to report the percentage of participants moving to permanent housing on its Annual Progress Report (APR). CoCs then use this data from all of its CoC funded transitional housing projects to report on the overall CoC performance on form 4C. Continuum of Care (CoC) Housing Performance.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of transitional housing participants moving from its SHP-TH projects into permanent housing to at least 65 percent. In addition, CoCs will indicate the current percentage of SHP-TH project participants moving into permanent housing as indicated on form 4C, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded transitional housing projects (SHP-TH) for which an APR was required, should indicate this in both of the narratives below and enter 0 in the first numeric field below.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to increase the percentage of participants in CoC funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).

Biannually review project APR's to assess progress towards movement of homeless persons from transitional housing to permanent housing. Continue to assist homeless individuals NOT eligible for public benefits to access mental health treatment, substance abuse treatment and medical care enabling persons to move to PH options. Work with partner agencies to access new funding sources through HPRP to assist in the move to PH by providing security deposit and rental assistance. Increase the participation in the Colorado Coalition for the Homeless/St. Francis Integrative health model to provide dental care, medical primary care, and mental health and substance abuse treatment services to 2,600 patients by end of 2010. Continue work on employment plan/program for homeless through Coordinating Committee.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants in CoC funded transitional housing projects that move to permanent housing to 65 percent or more (limit 1000 characters).

Continue to educate CoC participant agencies on available funding sources through HPRP and other NOFA's to assist in the move to PH by providing security deposit and rental assistance. Monitoring of APR's to determine best practices and share among members. Work with community to develop more PH units and provide more housing vouchers to make PH options available. Encourage work being done by current organizations that provide the foundation and life skills needed for households success in moving from TH to PH options. Expand access to benefits to ensure financial resources to move to PH through such strategies as BART and SOAR. Fully develop job/employment program currently being worked on to allow PH retention.

What is the current percentage of participants in CoC funded transitional housing projects will have moved to permanent housing? 74

In 12-months, what percentage of participants in CoC funded transitional housing projects will have moved to permanent housing? 74

In 5-years, what percentage of participants in CoC funded transitional housing projects will have moved to permanent housing? 76

In 10-years, what percentage of participants in CoC funded transitional housing projects will have moved to permanent housing? 78

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 4: Increase percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more.

Instructions:

Employment is a critical step for homeless persons to achieve greater self-sufficiency, which represents an important outcome that is reflected both in participants' lives and the health of the community. Each CoC funded project (excluding HMIS dedicated projects only) is expected to report the percentage of participants employed at exit on its Annual Progress Report (APR). CoCs then use this data from all of its non-HMIS projects to report on the overall CoC performance on form 4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information.

On this section, CoCs are to describe short-term and long-term plans for increasing the percentage of all CoC funded program participants that are employed at exit to at least 20 percent. In addition, CoCs will indicate the current percentage of project participants that are employed at exit, as reported on 4D, as well as the expected percentage in 12-months, 5-years, and 10-years. CoCs that do not have any CoC funded non-HMIS projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, or S+C TRA/SRA/PRA/SRO) which an APR was required, should indicate this in both of the narratives below and enter 0 in the first numeric field below.

For additional instructions, refer to the Exhibit 1 Detailed Instructions which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to increase the percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).

Coordinating Committee has formed an Employment Sub-Committee to focus on developing employment opportunities for people who are homeless with an emphasis on jobs paying more than minimum wage and providing benefits. They are working to accomplish this by convening "sharing meetings" with workforce center staff from throughout the CoC with service providers and homeless to discuss the barriers to employment for this population and solutions we can all work together on to assure more employment success. Encourage expansion of employment programs already in existence with the hospitality industry and continue partnership with the State Division of Vocational Rehabilitation to connect homeless individuals with vocational rehabilitation services. MDHI CoC chose a project combining housing and employment to homeless with disabilities as its PHB recipient this year.

Describe the CoCs long-term (10-year) plan to increase the percentage of participants in all CoC funded projects that are employed at program exit to 20 percent or more (limit 1000 characters).

MDHI will continue to monitor APR's and share success CoC wide to encourage best practices. MDHI, through its many members, will keep alert for new funding sources for job training and education for the homeless. Will work with Veterans' organizations to assist in job development and placement. Build on relationships CoC members already have with state and county work programs. Work with CoC providers to assure primary parents have access to continuing education programs making them more valuable in the work place and setting an example for their kids.

- What is the current percentage of participants in all CoC funded projects that are employed at program exit?** 21
- In 12-months, what percentage of participants in all CoC funded projects will be employed at program exit?** 24
- In 5-years, what percentage of participants in all CoC funded projects will be employed at program exit?** 30
- In 10-years, what percentage of participants in all CoC funded projects will be employed at program exit?** 35

3A. Continuum of Care (CoC) Strategic Planning Objectives

Objective 5: Decrease the number of homeless households with children.

Instructions:

Ending homelessness among households with children, particularly for those households living on the streets or other places not meant for human habitation, is an important HUD priority. CoCs can accomplish this goal by creating new beds and/or providing additional supportive services for this population.

On this section, CoCs are to describe short-term and long-term plans for decreasing the number of homeless households with children, particularly those households that are living on the streets or other places not meant for human habitation. In addition, CoCs will indicate the current total number of households with children that was reported on their most recent point-in-time count. CoCs will also enter the total number of homeless households with children that they expect to be able to report in 12-months, 5-years, and 10-years.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Describe the CoCs short-term (12-month) plan to decrease the number of homeless households with children. (limit 1000 characters)

Continue to educate CoC participant agencies on available funding sources through HPRP and other NOFA's to assist in the move to PH by providing security deposit and rental assistance. Monitoring of APR's to determine best practices and share among members. Work with community to develop more PH units and provide more housing vouchers to make PH options available. Encourage work being done by current organizations that provide the foundation and life skills needed for households success in moving from TH to PH options. Expand access to benefits to ensure financial resources to move to PH through such strategies as BART and SOAR. Fully develop job/employment program currently being worked on to allow PH retention.

Describe the CoCs long-term (10-year) plan to decrease the number of homeless households with children. (limit 1000 characters)

Work with new funding sources to develop programs for people with poor credit histories and/or criminal backgrounds to qualify for housing (NSP). Continue to coordinate CoC participants in provision of funding to prevent evictions, foreclosure and utility shut-off(HPRP). Encourage CoC members to utilize Family Unification Program dollars (\$766,640 coming to CoC members in next year) to keep families together & in homes. Continue to monitor APR's to identify effective prevention programs and share with all CoC stakeholders. Work cross-jurisdictionally to increase coordination and collaboration between mainstream mental health resources, substance abuse resources and programs, mainstream health providers and nonprofit providers to ensure better utilization of health care resources ensuring households do not become homeless for reasons associated with these issues.

What is the current total number of homeless households with children, as reported on the most recent point-in-time count?	1,122
In 12-months, what will be the total number of homeless households with children?	1,100
In 5-years, what will be the total number of homeless households with children?	995
In 10-years, what will be the total number of homeless households with children?	895

3B. Continuum of Care (CoC) Discharge Planning

Instructions:

The McKinney-Vento Act requires that State and local governments have policies and protocols in place to ensure that persons being discharged from a publicly- funded institution or system of care are not discharged immediately into homelessness. To the maximum extent practicable, Continuums of Care should demonstrate how they are coordinating with and/or assisting in State or local discharge planning efforts to ensure that discharged persons are not released directly onto the streets, homeless shelters, or into other McKinney-Vento homeless assistance programs (SHP, S+C, or SRO). For each system of care, CoCs are to address the following:

What: Describe the efforts that the CoC has taken to ensure that persons are not routinely discharged into homelessness. For foster care, CoCs should be specifically addressing the discharge of youth aging out of foster care. If there is a State mandate that requires publicly funded institutions to ensure appropriate housing placement, which does not include homelessness, please indicate this in the applicable narrative.

Where: Indicate where persons routinely go upon discharge. Response should identify alternative housing options that are available for discharged persons other than the streets, shelters, and/or McKinney-Vento homeless assistance programs.

Who: Identify stakeholders and/or collaborating agencies that are responsible for ensuring that persons being discharged from a system of care are not routinely discharged into homelessness.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

For each system of care identified below, describe the CoC's efforts in coordinating with and/or assisting in the development of local discharge planning policies that ensure persons are not routinely discharged into homelessness, including the streets, shelters, or other McKinney-Vento homeless assistance housing programs. Please review all instructions to ensure that each narrative is fully responsive. (limit 1500 characters)

Foster Care (Youth Aging Out):

In 2004 House Bill 1107 created the Office of Homeless Youth Services now located within the Colorado Department of Human Services, Supportive Housing and Homeless Programs. The Office is responsible for examining discharge policies, protocols and processes for youth aging out of the foster care system and child welfare system. The Office of Homeless Youth Services works with the Executive Directors, or their designees, of the Departments of Corrections, Education, Health Care Policy and Financing, Human Services, Public Safety, Public Health and Environment, the Judicial Department, as well as, private nonprofit and not-for-profit organizations, appropriate federal departments and other key stakeholders in the community served by the MDHI CoC. The Office is responsible for developing and implementing recommendations on how to ensure that youth graduating from systems of care do not end up on the streets or shelters. The Homeless Youth Coordinator utilized an advisory body and completed a strategic plan. The key goals in this strategic plan were incorporated into a set of recommendations that were developed by the Colorado Community and Interagency Council on Homelessness, which were presented to Governor Bill Ritter in October of 2008 and a protocol was established incorporating many of these recommendations ensuring youth aren't discharged to homelessness. Non-profits in the CoC working with youth played an important part in the implementation of these recommendations.

Health Care:

Health care discharge policy is a coordinated effort among the Denver Department of Human Services, Denver Health and Hospitals, St. Joseph's Hospital, Porter Hospital and CoC homeless service providers including the Colorado Coalition for the Homeless, VOA, Samaritan House, Christ Bodies Ministries and the Denver Rescue Mission. The system includes 115 respite beds which accept referrals from Denver Health, Porter Hospital, St. Joseph's, Stout Street Clinic, and street outreach workers. Respite beds are available to homeless individuals upon hospital discharge and stayed 100% full in the last year.

Improvements to the system recently include new respite beds at Christ Bodies Ministries, funded by Denver's Road Home, Denver Rescue Mission, & VOA's Family Motel. Meetings with all Respite Providers occur on a regular basis. Currently Denver is working on a national demonstration project called Hospital to Home, where communities across the country are conference calling to share best practice models on how to work on coordinated discharge planning from hospitals in major urban cities.

Mental Health:

The State of Colorado has a discharge policy in place for the two state mental health institutes, which prevents and severely limits the institutes from discharging of persons to shelters. The two mental health institutes have 3 distinct populations whose discharge processes differ from one another.

1. The civil commitment group. These are subdivided into adult, adolescent and geriatric groups. They are admitted primarily through the state mental health statute governing the treatment of the severely mentally ill. The hospital by policy must arrange for both a safe setting and continuity of care.

2. Criminal commitments: NGRI(The Not Guilty by Reason of Insanity) patients can progress to community placement. This requires not only evidence of clinical results in reducing the patient's risk to the community, but also a consensus among treatment providers, prosecutors and courts. An NGRI patient can leave the hospital on an approved community placement only when the financial, physical and clinical resources have been secured. The scenarios can vary from a locked nursing home, to an apartment and job.

3. Criminal commitments: Competency and Sanity. The courts regularly send to the hospital accused individuals whose competency to stand trial or petition of insanity requires evaluation. The usual disposition of these patients is a return to the county jail.

Corrections:

The State of Colorado is actively working on developing discharge policies for correctional institutions including pre-release benefits acquisition as mandated by new legislation. A legislative task force which includes the Dept. of Corrections, mental health providers, juvenile corrections, state human services, parole and probation is working on this issue. In addition, the Governor's Interagency Homeless Council has recently completed a set of recommendations for Governor Ritter and the legislature that includes recommendations for discharge planning for this population. Recommendations were presented to Governor Bill Ritter in October of 2008 and some progress has been made on establishing a protocol. A CoC member organization is responsible for the creation of a 215 page "Re-Entry Guide" given out to those exiting prisons to better prepare them to address housing and employment issues. Through the work of the CoC's Employment Sub-Committee, regional employment & housing barrier issues for ex-offenders are being targeted and addressed. Resources lists for "ex-offender friendly" employers are constantly updated and disseminated to service providers. Programs through such agencies as the Denver OEO are being developed to provide vouchers with Case Management attached to provide housing for this population.

3C. Continuum of Care (CoC) Coordination

Instructions:

A CoC should regularly assess its local homeless assistance system and identify shortcomings and unmet needs. One way in which a CoC can improve itself is through long-term strategic planning. CoCs are encouraged to establish specific goals and then implement short-term action steps. Because of the complexity of existing homeless systems and the need to coordinate multiple funding sources and priorities, there are often multiple long-term strategic planning groups. It is imperative for CoCs to coordinate, as appropriate, with each of these existing strategic planning groups to meet local needs.

For additional instructions, refer to the [Exhibit 1 Detailed Instructions](#) which can be accessed on the left-hand menu bar.

Does the Consolidated Plan for the jurisdiction(s) that make up the CoC include the CoC strategic plan goals for addressing homelessness? Yes

If yes, list the goals in the CoC strategic plan that are included in the Consolidated Plan:

1. Assist persons who are homeless or at-risk of becoming homeless.
2. Develop permanent and transitional housing opportunities to meet the needs of people at 0 to 30 percent of the AMI or less than \$15,050 per year.
3. Make safe and legal beds and activities available for all populations both day and night until adequate housing is in place.
4. Provide CoC residents facing homelessness more tools to keep them from ending up on the streets or in emergency shelters.
5. Provide better access to supportive services that promote long-term stability and improved functioning for those in need and movement into permanent housing as soon as possible.
6. Provide education, training, and employment to assist people who are homeless obtain skills and knowledge necessary to participate in the workforce.
7. Build community awareness and support for coordinated responses to eliminate homelessness in ten years.

Describe how the CoC is participating in or coordinating with the local Homeless Prevention and Rapid re-housing Program (HPRP) initiative, as indicated in the substantial amendment to the Consolidated Plan 2009 Action Plan (1500 character limit):

Through the Coordinating Committee, MDHI keeps track of HPRP allocations to the CoC area served and at least 21 of our CoC provider/sponsor members have utilized this funding from the Denver Metro as well as State HPRP allocations to provide services such as deposit and rent assistance to homeless moving into Permanent Housing or for prevention programs to assure households stay in current housing. Through work of this Committee, smaller agencies joined to establish a common phone number for community to access information and locations to go to for assistance. An outreach or community resource office at Colorado Coalition for the Homeless was established as another point of entry where families and individuals can be directed to point of service. About one half of the funding applied for will serve families and the remaining half will be used for individuals (men, women and youth).

Describe how the CoC is participating in or coordinating with any of the following: Neighborhood Stabilization Program (NSP) initiative, HUD VASH, or other HUD managed American Reinvestment and Recovery Act programs (2500 character limit)?

The CO Department of Human Services, through a CoC funded program, works with HUD VASH to provide 100 beds to Vets in all CoC jurisdictions. Case managers in permanent and transitional housing settings work with formerly homeless striving for homeownership and utilized 1st time homebuyer programs being offered by State, counties & municipalities through the NSP programs in their jurisdictions resulting in 3 households exiting TH, PH and S+C programs to homeownership in last year. The MDHI CoC area received a total of almost \$8,450,000 in HPRP funds and almost \$2,900,000 in TANF funds to provide financial aid and stabilization services to over 2,200 households in our 7 county CoC area to date as well as using \$985,000 for HMIS improvements and some admin for entire state. These funds coming through direct HUD funding to municipalities, counties as well as to the State, were accessed by over 24 CoC member organizations. MDHI is encouraging members to work with their county and city jurisdictions to access NSP funds(1,2 &3)/properties for PH unit development as well as accessing some of the \$574,277 in HOME funds for production of PH that was recently awarded to Jefferson Co. The CoC encourages members to weigh in on the passage of a National Housing Trust Act that could potentially bring \$14-15 million to Colorado for the development of Permanent Housing units. MDHI is also working with member groups interested in the development of more beds for homeless vets through the PHB NOFA process. Our MDHI CoC community members continue work on identifying opportunity zones for the placement of affordable housing & encourages the faith based communities' efforts to sponsor homeless families and individuals with housing assistance. CoC continues efforts to educate the public about the need for permanent affordable housing in an effort to raise awareness and acceptance. We are working with jurisdictional housing authorities to make more regular and project based vouchers available for those at or below 30% AMI through additional HUD funding provided for more vouchers this past year. Boulder Housing Partners, a CoC member, will also be receiving \$763,572 to provide rental assistance for non-elderly disabled which will help folks obtain and stay in PH units.

Indicate if the CoC has established policies that require homeless assistance providers to ensure all children are enrolled in school and connected to appropriate services within the community? Yes

If yes, please describe the established policies that are in currently in place.

CoC began instruction last year for members to better understand the educational assurance mandated by the HEARTH Act. The homeless school liaisons for each of our jurisdictional areas were identified and the information shared throughout the CoC. These individuals were asked to attend both our Coordinating Committee as well as Board meetings to detail how they work in the schools and to identify ways in which provides can work with the liaisons to assure that the rights of these children for educational services. Members were instructed to make the continued school participation of homeless children a major focus of their case management plans and it will need to be covered in the renewal applications for continued funding.

Describe the CoC's efforts to collaborate with local education agencies to assist in the identification of homeless families and inform them of their eligibility for McKinney-Vento education services. (limit 1500 characters)

Working with the State Department of Education, CoC providers have been educated on the steps needed to be taken by each jurisdiction to identify homeless children in their areas. Flyers have been developed in both English and Spanish to inform project/program participants of the educational rights of homeless children and youth. These are in the hands of agency Intake counselors, Case Managers, school counselors, and Outreach personnel and are given to families. Outreach already made to schools regarding PIT count Jan 2011 and how we can work together to get much more accurate numbers for this population.

Describe how the CoC has, and will continue, to consider the educational needs of children when families are placed in emergency or transitional shelter. (limit 1500 characters)

When families with children are admitted to programs and projects, or seen on outreach, education placement for the children is considered to try and make sure kids are able to continue in current school setting if desired, or in the local school where they are accessing resources. If a child is placed in a new school setting while in a shelter or TH program, efforts are made to provide permanent housing within same school boundaries if desired by family. Transportation to and from school is provided by bus tokens, cab vouchers, or gas for family vehicles. Program and shelter staff work with local schools on identifying the needs of these children (clothing, coats, school supplies, transportation, etc) and coordinate efforts to keep the kids in school.

Describe the CoC's current efforts to combat homelessness among veterans. Narrative should identify organizations that are currently serving this population, how this effort is consistent with CoC strategic plan goals, and how the CoC plans to address this issue in the future.(limit 1500 characters)

DHS currently uses V-Bash vouchers and MDHI leadership is working with CoC members in the Aurora area to develop more PH beds for Veterans as the new VA Regional hospital is being built there. Through collaboration with the VA, CoC providers were able to assist 56 Veterans obtain VA benefits and another 90 get VA Health care. A CoC funded program, St. Joseph's Home, concentrates on providing housing and case management for veterans, using older vets to mentor younger vets on returning to productivity and remaining in housing. CoC providers have also recently used HPRP funds to assist some vets in remaining in housing by assisting with utility, rent and deposit payments. Outreach workers with Colorado Coalition for the Homeless and other agencies identify veterans in the homeless they contact and refer them to case managers able to assist with getting access to benefits. Several of the CoC funded groups are in contact with the VA on a regular basis to encourage referrals to the various programs. Our PIT in 2011 will also try to better identify the true number of homeless vets in our CoC area.

3D. Hold Harmless Need (HHN) Reallocation

Instructions:

Continuum of Care (CoC) Hold Harmless Need (HHN) Reallocation is a process whereby an eligible CoC may reallocate funds in whole or in part from SHP renewal projects to create one or more new permanent housing projects and/or a new dedicated HMIS project. A CoC is eligible to use the HHN Reallocation process if it's Final Pro Rata Need (FPRN) is based on it's HHN amount or if it is a newly approved merged CoC that used the Hold Harmless Merger process during the 2010 CoC Registration process.

The HHN Reallocation process allows eligible CoCs to fund new permanent housing or dedicated HMIS projects by transferring all or part of funds from existing SHP grants that are eligible for renewal in 2010 into a new project. New reallocated permanent housing projects may be for SHP (one, two, or three years), S+C (five or ten years), and Section 8 Moderate Rehabilitation (ten years). New reallocated HMIS projects may be for one, two or three years.

A CoC whose FPRN is based on its Preliminary Pro Rata Need (PPRN) is not eligible to reallocate existing projects through this process and should therefore always select "No" to the questions below.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Does the CoC want to reallocate funds from one or more expiring SHP grant(s) into one or more new permanent housing or dedicated HMIS project(s)? No

Is the CoCs Final Pro Rata Need (FPRN) based on either its Hold Harmless Need (HHN) amount or the Hold Harmless Merger process? Yes

CoCs who are in PPRN status are not eligible to reallocate projects through the HHN reallocation process.

4A. Continuum of Care (CoC) 2009 Achievements

Instructions:

In 2009, CoCs were asked to propose numeric achievements for each of HUD's five national objectives related to ending chronic homelessness and moving families and individuals to permanent housing. In 2010, CoCs will report on their actual accomplishments versus what was proposed in the previous application.

In the column labeled '2009 Proposed Numeric Achievement', enter the number of beds, percentage, or number of households that was entered in the 2009 application for the applicable objective. In the column labeled 'Actual Numeric Achievement', enter the actual number of beds/percentage/number of households that the CoC has reached to date for each objective.

CoCs will also indicate whether or not they submitted an Exhibit 1 in 2009. If a CoC did not submit an Exhibit 1 in 2009, they should enter 'No' to the question below. Finally, CoCs that did not fully meet the proposed numeric achievement for any of the objectives should indicate the reason in the space provided below.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Objective	2009 Proposed Numeric Achievement:		Actual Numeric Achievement	
Create new permanent housing beds for the chronically homeless.	30	Beds	34	Beds
Increase the percentage of homeless persons staying in permanent housing over 6 months to at least 77%.	76	%	78	%
Increase the percentage of homeless persons moving from transitional housing to permanent housing to at least 65%.	63	%	74	%
Increase percentage of homeless persons employed at exit to at least 20%	30	%	21	%
Decrease the number of homeless households with children.	1,400	Households	1,122	Households

Did CoC submit an Exhibit 1 application in 2009? Yes

If the CoC was unable to reach its 2009 proposed numeric achievement for any of the national objectives, provide a detailed explanation.

We are falling short on our increase percentage of homeless persons employed at exit to at least 30% although we do meet HUD's required %. The national and local recession has added additional barriers to employment for the homeless households on whose behalf we work. Our 2009 PIT showed that over 44% of homeless counted reported being so for the 1st time identifying inability to pay rent/mortgage & loss of jobs as the most prevalent issues leading to them being homeless. We were hard pressed as a community to provide shelter and services to the large increase in homelessness this recession caused. The overall unemployment rate in our area limited even further the ability of homeless to obtain employment. We are working as a CoC to develop more partnerships with employers in the service & lodging industries to employ homeless and awarded our PHB to a program this year that incorporates housing and employment. One of our CoC members, Bayuad Industries, has even started up companies of its own to go after contracts with government agencies and fill those positions with homeless they work with. We will continue to develop more partnerships through the work of our Coordinating Committee's sub-committee on employment.

4B. Continuum of Care (CoC) Chronic Homeless Progress

Instructions:

HUD must track each CoCs progress toward ending chronic homelessness. In the 2010 NOFA, a chronically homeless person is defined as an unaccompanied homeless individual with a disabling condition or a family with at least one adult member who has a disabling condition who has either been continuously homeless for at least a year OR has had at least four episodes of homelessness in the past three (3) years.

This section asks each CoC to track changes year to year in the number of chronically homeless persons as well the number of beds available for this population. CoCs will complete this section using data reported for the 2008, 2009, and 2010 (if applicable) Point-In-Time counts as well as data collected and reported on for the Housing Inventory Counts (HIC) for those same years. For each year, indicate the total unduplicated point-in-time count of the chronically homeless as reported in that year. For 2008 and 2009, this number should match the number indicated on form 2J of the respective year’s Exhibit 1. For 2010, this number should match the number entered on the Homeless Data Exchange (HDX).

Next, enter the total number permanent housing beds that were designated for the chronically homeless in 2008 and 2009, as well as the number of beds that are currently in place. For 2010, this number of beds should match the number of beds reported in the 2010 HIC and entered onto the Homeless Data Exchange (HDX). CoCs should include beds designated for this population from all funding sources.

For additional instructions, refer to the ‘Exhibit 1 Detailed Instructions’ which can be accessed on the left-hand menu bar.

Indicate the total number of chronically homeless persons and total number of permanent housing beds designated for the chronically homeless persons in the CoC for 2008, 2009, and 2010.

Year	Number of CH Persons	Number of PH beds for the CH
2008	513	581
2009	412	794
2010	839	797

Indicate the number of new permanent housing beds in place and made available for occupancy for the chronically homeless between February 1, 2009 and January 31, 2010. 18

Identify the amount of funds from each funding source for the development and operations costs of the new permanent housing beds designated for the chronically homeless, that were created between February 1, 2009 and January 31, 2010.

Cost Type	HUD McKinney-Vento	Other Federal	State	Local	Private
Development					
Operations	\$126,000			\$2,100,000	
Total	\$126,000	\$0	\$0	\$2,100,000	\$0

If the number of chronically homeless persons increased or if the number of permanent beds designated for the chronically homeless decreased, please explain (limit 750 characters):

Number of Chronic Homeless increased due to 2009 PIT methodology used which was different than in prior years. We also question the validity of the number produced by the study due to discrepancies in the way disability was counted, a component of the chronic definition. We worked with various agencies doing quarterly counts of the homeless population but look forward to the January 2011 PIT to more accurately count the homeless in our CoC.

4C. Continuum of Care (CoC) Housing Performance

Instructions:

All CoC funded non-HMIS projects are required to submit an Annual Progress Report (APR) within 90 days of a given operating year. To demonstrate performance on participants remaining in permanent housing for more than six months, CoCs must use data on all permanent housing projects that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using data entered for Question 12(a) and 12(b) for the most recently submitted APR for all permanent housing projects (SHP-PH or S+C TRA/SRA/SRO/PRA) within the CoC that should have submitted one. Enter totals in field's a-e. The 'Total PH %' will be auto-calculated after selecting 'Save.' Please note, the percentage is calculated as c. +d. divided by a. +b. multiplied by 100. The last field (e.) is excluded from the calculation.

CoCs that do not have any SHP-PH or S+C projects for which an APR was required should select 'No' to the question below. This only applies to CoCs that do not have any CoC funded permanent housing projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the 'Exhibit 1 Detailed Instructions' which can be accessed on the left-hand menu bar.

Does the CoC have any permanent housing projects (SHP-PH or S+C) for which an APR was required to be submitted? Yes

Participants in Permanent Housing (PH)	
a. Number of participants who exited permanent housing project(s)	132
b. Number of participants who did not leave the project(s)	360
c. Number of participants who exited after staying 6 months or longer	81
d. Number of participants who did not exit after staying 6 months or longer	279
e. Number of participants who did not exit and were enrolled for less than 6 months	81
TOTAL PH (%)	73

Instructions:

HUD will also assess CoC performance in moving participants in SHP transitional housing programs into permanent housing. To demonstrate performance, CoCs must use data on all transitional housing projects that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 14 on the most recently submitted APR for all transitional housing projects (SHP-TH) within the CoC that should have submitted one. Once amounts have been entered into a & b, select *Save*. The *Total TH %* will be auto-calculated. Please note, the percentage is calculated as b. divided by a., multiplied by 100. CoCs that do not have any SHP-TH projects for which an APR was required should select *No* to the question below. This only applies to CoCs that do not have any CoC funded transitional housing projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the *Exhibit 1 Detailed Instructions* which can be accessed on the left-hand menu bar.

Does CoC have any transitional housing projects (SHP-TH) for which an APR was required to be submitted? Yes

Participants in Transitional Housing (TH)	
a. Number of participants who exited TH project(s), including unknown destination	286
b. Number of SHP transitional housing participants that moved to permanent housing upon exit	211
TOTAL TH (%)	74

4D. Continuum of Care (CoC) Enrollment in Mainstream Programs and Employment Information

Instructions:

HUD will assess CoC performance in assisting program participants with accessing mainstream services to increase income and improve outcomes such as health, education, safety, and/or economic outcomes of homeless persons. To demonstrate performance, CoCs must use data on all non-HMIS projects (SHP-PH, SHP-TH, SHP-SH, SHP-SSO, S+C TRA/SRA/PRA/SRO) that should have submitted an APR for the most recent operating year. Projects that did not submit an APR on time must also be included in this calculation.

Complete the table below using cumulative data entered for Question 11 on the most recently submitted APR for all non-HMIS projects within the CoC that should have submitted one. Each CoC shall first indicate the total number of exiting adults. Next, enter the total number of adults that exited CoC non-HMIS project with each source of income. Once amounts have been entered, select "Save" and the percentages will be auto-calculated. CoCs that do not have any non-HMIS projects for which an APR was required should select "No" to the question below. This only applies to CoCs that do not have any CoC funded non-HMIS projects currently operating within their CoC that should have submitted an APR.

For additional instructions, refer to the "Exhibit 1 Detailed Instructions" which can be accessed on the left-hand menu bar.

Total Number of Exiting Adults: 7,341

Mainstream Program	Number of Exiting Adults	Exit Percentage (Auto-calculated)	
SSI	371	5	%
SSDI	226	3	%
Social Security	26	0	%
General Public Assistance	338	5	%
TANF	231	3	%
SCHIP	28	0	%
Veterans Benefits	56	1	%
Employment Income	838	11	%
Unemployment Benefits	102	1	%
Veterans Health Care	90	1	%
Medicaid	396	5	%
Food Stamps	1,140	16	%
Other (Please specify below)	240	3	%
WIC, OAP, Child support, Medicare, AND, Private insurance, family help			
No Financial Resources	4,724	64	%

The percentage values will be calculated by the system when you click the "save" button.

Does the CoC have any non-HMIS projects for which an APR was required to be submitted? Yes

4E. Continuum of Care (CoC) Participation in Energy Star and Section 3 Employment Policy

Instructions:

HUD promotes energy-efficient housing. All McKinney-Vento funded projects are encouraged to purchase and use Energy Star labeled products. For information on Energy Star initiative go to: <http://www.energystar.gov>

A "Section 3 business concern" is one in which: 51% or more of the owners are section 3 residents of the area of service; or at least 30% of its permanent full-time employees are currently section 3 residents of the area of service, or within three years of their date of hire with the business concern were section 3 residents; or evidence of a commitment to subcontract greater than 25% of the dollar award of all subcontracts to businesses that meet the qualifications in the above categories is provided. The "Section 3 clause" can be found at 24 CFR Part 135.

Has the CoC notified its members of the Energy Star Initiative? Yes

Are any projects within the CoC requesting funds for housing rehabilitation or new construction? Yes

4E. Section 3 Employment Policy Detail

Is the project requesting \$200,000 or more?: No

If Yes to above question, click save to provide activities

4F. Continuum of Care (CoC) Enrollment and Participation in Mainstream Programs

It is fundamental that each CoC systematically help homeless persons to identify, apply for, and follow-up to receive benefits under SSI, SSDI, TANF, Medicaid, Food Stamps, SCHIP, WIA, and Veterans Health Care as well as any other State or Local program that may be applicable.

Does the CoC systematically analyze its projects APRs in order to improve access to mainstream programs? Yes

If 'Yes', describe the process and the frequency that it occurs.

The SuperNOFA Review Committee reviews APRs annually. The committee will participate in all upcoming trainings on this review process as offered by HUD either as web-casts or scheduled trainings at Regional HUD office. Members also attended HMIS/HEARTH Conference in Denver this year to learn even more on analyzing APR's and rating the health of programs/projects in the CoC.

Does the CoC have an active planning committee that meets at least 3 times per year to improve CoC-wide participation in mainstream programs? Yes

If "Yes", indicate all meeting dates in the past 12 months.

MDHI coordinates and participates with the state interagency homeless council to improve access to mainstream programs. Governor Bill Ritter re-authorized the Colorado Community and Interagency Council on Homelessness in May 2007. The Council meets approximately every other month. The Coordination Committee of MDHI also meets monthly and has participants from all counties in the CoC. This Committee coordinates the Regional Jurisdiction Conference annually (April 2, 2010) that brings County Commissioners, City Council members, Mayors, City Officials, Police, members of the Governor's office, service providers, faith based groups and non-profits, as well as homeless and formerly homeless together to discuss barriers to housing, employment, benefit procurement, transportation to work sites and service sites, cold weather planning, etc.

Does the CoC coordinate with the State Interagency Council on Homelessness to reduce or remove barriers to accessing mainstream services? Yes

Does the CoC and/or its providers have specialized staff whose primary responsibility is to identify, enroll, and follow-up with homeless persons on participation in mainstream programs? Yes

If yes, identify these staff members Provider Staff

Does the CoC systematically provide training on how to identify eligibility and program changes for mainstream programs to provider staff. Yes

If "Yes", specify the frequency of the training. quarterly (once each quarter)

Does the CoC use HMIS as a way to screen for mainstream benefit eligibility? No

If "Yes", indicate for which mainstream programs HMIS completes screening.

Our current HMIS software does not screen for eligibility. We are not sure yet if the new software we are purchasing will perform this function or not, but do know it does track benefits that participants/clients are receiving.

Has the CoC participated in SOAR training? Yes

If "Yes", indicate training date(s).

- Two large group SOAR trainings were held in Denver:
- 1) 5/2009 attended by about 150 persons
- 2) 11/2009 Train the Trainer

4G: Homeless Assistance Providers Enrollment and Participation in Mainstream Programs

Indicate the percentage of homeless assistance providers that are implementing the following activities:

Activity	Percentage
1. Case managers systematically assist clients in completing applications for mainstream benefits. 1a. Describe how service is generally provided:	100%
Each homeless provider has one or more staff, typically case managers, who assist clients in completing applications.	
2. Homeless assistance providers supply transportation assistance to clients to attend mainstream benefit appointments, employment training, or jobs.	100%
3. Homeless assistance providers use a single application form for four or more mainstream programs: 3.a Indicate for which mainstream programs the form applies:	100%
Colorado has established a computerized Colorado Benefits Management System for application for food stamps, Medicaid, TANF, Old Age Pension, Aid to the Needy Disabled, and Aid to the Blind.	
4. Homeless assistance providers have staff systematically follow-up to ensure mainstream benefits are received.	100%
4a. Describe the follow-up process:	
The Benefits Acquisition and Retention Team of the Colorado Coalition for the Homeless provides case management and advocacy to individuals applying for SSI and Medicaid to ensure that these benefits are obtained. Denver Department of Human Services Staff provide follow-up on TANF, Food Stamps and other state benefits.	

Continuum of Care (CoC) Project Listing

Instructions:

IMPORTANT: Prior to starting on the CoC Project Listing, CoCs should carefully review the CoC Project Listing Instructions and the CoC Project Listing training module, both of which are available at www.hudhre.info/esnaps.

To upload all Exhibit 2 applications that have been submitted to this CoC, click on the "Update List" button. This process will take longer based upon the number of projects that need to be located. The CoC can either work on other parts of Exhibit 1 or it can log out of e-snaps and come back later to view the updated list. To review a project, click on the next to each project to view project details.
